Notes Forming Part Of Financial Statements For The Year Ended 31st March 2016.**SIGNIFICANT ACCOUNTING POLICIES:****1. Basis of Preparation, Presentation and Disclosure of Financial Statements.**

The financial statements has been prepared to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013 (the 'Act'), read together with Rule 7 of the Companies(Accounts) Rules,2014.The standalone financial statements has been prepared under the historical cost convention, as a going concern to comply in all respects, with the mandatory accounting standards issued by the Institute of Chartered Accountants of India (ICAI), generally accepted accounting principles and provisions of the Act following mercantile system of accounting as adopted consistently by the Company. Accounting policies not referred to otherwise, are consistent with generally accepted accounting principles.

All income and expenditure having material bearing are recognized on accrual basis except where otherwise stated.

2. Use of Estimates:

The presentation of financial statements are in conformity with the generally accepted accounting principles which requires estimates and assumptions to be made that may affect the reported amount of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimated. Any revisions to accounting estimates are recognized prospectively in the current and future periods.

3. Cash and cash equivalents:

Cash and cash equivalents comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

4. Revenue Recognition:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

5. Employee benefits:

As the Company does not have requisite number of employees, it is not statutorily required to provide any statutory employee benefits. However, other benefits given to the employees are short term in nature and hence are accounted on accrual basis at an undiscounted value.

6. Income Taxes:

Tax expense comprises both current and deferred tax.

Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates and tax laws.

Deferred tax assets and liabilities are recognised for future tax consequences attributable to the timing differences between taxable income and accounting income that are capable of reversal in one or more subsequent periods and are measured using tax rates enacted or substantively enacted as at the Balance Sheet date. Deferred tax assets are not recognised unless, in the management judgment, there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. The carrying amount of deferred tax is reviewed at each balance sheet date.

7. Segment Information:

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the company as a whole. Since the Company's is presently operating only in one business segment, the policies on inter-segment transfers, allocation of common costs and unallocated items are not required.

8. Provisions and Contingent Liabilities

Provisions are recognised in the accounts in respect of present probable obligations as a result of a past event, and the amount of which can be reliably estimated.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Disclosure for a contingent liability is also made when there is a possible obligation, but probably will not require an outflow of resources.
